Staff

"Everyday I come to work I feel the love of a family and the support of friends. The wonderful people I work with here everyday are more than just co-workers, they are the most caring, loving, and supportive people I have ever had the privilege to call my friends!"

"There are many things that make me happy to be at SJV everyday. My favorite thing is the feeling of family that exists throughout our school community. It is so comforting to be a part of an educational environment that cares for their students as they would their own children. Everyone here values this meaning of family with God as our Father."

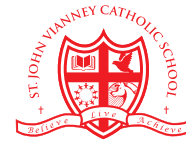

Alumni Parent

"St. John's re-affirmed the things that my husband and I were doing at home with our children: teaching them self respect, self-confidence and to remember to treat others the way they'd like to be treated. They are grown up now but those three things have helped them be successful people from high school, through college, and now out in the world as young adults."
